## Work

### Exclamation Labs

Nov 2017 — Present

**Web App Developer** <https://www.exclamationlabs.com/> (<https://www.exclamationlabs.com/>)

As an agency that focuses in the financial and insurance sectors, I specialize in taking the clients' specific, complex needs and implementing simple-to-the-user solutions.

## Highlights

- Glowing commendations from colleagues across teams in first performance review.

## Willetts Systems

Mar 2016 — Nov 2017

**Software Developer** <http://teamwilletts.com> (<http://teamwilletts.com>)

I work on custom web-based apps for a variety of clients in various sectors.

## Highlights

- Designed and maintain custom API serving data to multiple different clients (including web and mobile)
- Regularly keep up on emerging technologies, finding the right tool for the job.
- Regularly added new features and maintained an electronic medical record app.

## Freelance

Mar 2015 — Mar 2016

**Web Developer** <http://tgrowden.com> (<http://tgrowden.com>)

I worked as a freelance web developer, designing and coding sites for businesses and individuals, ranging from single static pages to complex apps with custom backends.

## Highlights

- Configured and maintain several virtual private servers for web hosting.

- Regularly meet deadlines and fulfill clients' needs.

## **Archway Station, Inc.**

Mar 2012 — Mar 2015

<http://www.archwaystationinc.org/> (<http://www.archwaystationinc.org/>)

### **Certified Medication Technician**

#### Highlights

- Worked one-on-one with individuals with developmental disabilities.
- Complied with all HIPAA requirements while documenting on paper and electronically.
- Created and maintained Excel databases for staff utilization-tracking.
